

FREESTANDING COURSES BY

www.altuspro.com

ALTUS Freestanding Course with a zipline can be installed indoors or outdoors on any flat surface without any permanent fixing into the ground.

ADAPTABLE

The standard Freestanding Course consists of 25 obstacles with the option to build bigger or smaller courses.

QUALITY

Our installations are inspected by an independent agency to be compliant with both the ACCT and the European standards.

SAFE AND EASY TO OPERATE

The continuous lifeline is very user friendly. Once connected to the safety system, the participants are always attached which increases user safety and reduces operating staff.

1 four post section with 10 obstacles
