

MOBILE COURSES BY

www.altuspro.com

ALTUS Mobile Course can be installed in limited space both indoors or outdoors on any flat surface.

EASY TO INSTALL

It takes 2 people two and a half hours to set up.

QUALITY

Our installations are inspected by an independent agency to be compliant with both the ACCT and the European standards.

SAFE AND EASY TO OPERATE

The continuous lifeline is very user friendly. Once connected to the safety system, the participants are always attached which increases user safety and reduces operating staff.
